

Finding Your Glove Size

Carving Fundamentals

To find the size when buying a carving glove, use the guidelines in this handout.

- 1 Measure around your knuckles (fingers only) where your fingers join your palm; that measurement in inches is your glove size.
- 2 Then, use the following matrix to find your glove size.

Hand Measurement (inches)	Glove Size
5 to 6	Extra Small (XS)
6 to 7	Small (S)
7 to 8	Medium (M)
8 to 9	Large (L)
9 to 10	Extra Large (XL)
